

Combining Videosign's secure digital contracting technology with  
local partnership and client support in South Africa.

# International contracting

Secure contracting.  
Across borders.  
With confidence in  
who signs.

## Built for transactions where trust matters.

Cross-border agreements | Supplier contracts | NDAs | Approvals | High-value transactions

### VERIFY

Confirm signer identity with built-in verification, plus biometric, bank-based and KYC/AML checks through integrated partners.

### MEET

Meet remotely to review documents and complete transactions securely in-browser. No software download required.

### SIGN

Choose the right level of signature assurance, including SES, AES and QES workflows.

### EVIDENCE

Retain signed documents, timestamps, verification details, transaction activity and video evidence in one audit trail.
